

Golf Linx Platforms and Ramp Kits

Platforms and Ramp Kits makes owning the Golf Linx Auto Tee-up System easier than ever. Instead of having to build your own ramp and platform from the ground up, now you can order expertly built kits that require simple assembly and standard lumber from your local hardware store.

For a limited time, Golf Linx is offering special introductory pricing with the purchase of an Auto-Tee System:

Ramp Kits**	Item No.	Price*
8ft x 8ft Ramp Kit	RK88	\$400

Ramp Kit

fully assembled 8ft x 12ft ramp – RK812

ramp kit components – RK812

The Ramp Kit includes front and back supports set at 10 degrees, ramp funnels to ensure that balls make it to the auto tee system and all necessary hardware for assembly. The customer supplies standard 2x4 lumber for the stretchers and back beam and $\frac{3}{4}$ inch plywood for the ramp surface. Detailed assembly instruction included with purchase.

a. single front supports

b. single back supports

c. ramp funnels

d. double front supports

e. double back supports

f. all necessary hardware

Platforms

4ft x 5ft Platform with Insert Recess – P45

3ft x 5ft Platform - P35

Auto-Tee platforms come in two variations and require simple assembly. Customer must construct separate platforms to extend platform to desired final size. Both platforms stand 5 ¾ inches above the ground.

- **3ft x 5ft standard platform**
 - o Includes all necessary routing for wiring and ball pipe
 - o Mount for Auto-Tee Keypad
- **4ft x 5ft platform with insert recess**
 - o Includes all necessary routing for wiring and ball pipe
 - o Mount for Auto-Tee Keypad
 - o Insert recess sized to fit a 2 panel Fiberbuilt strip (12 ¼" x 23 ½")

Included Components:

- 1 ½" x 5" solid wood frame materials with ball pipe and wiring routes
- ¾" pre-cut plywood panels for top surface
- Mount for Auto-Tee Keypad (not pictured)
- All necessary hardware for assembly

4ft x 5ft Platform with Insert Recess Frame with included plywood hidden - P45

*Auto-Tee System not included
